

COMMUNITY CARE  
PHYSICIAN NETWORK  
— BRINGING VALUE HOME —

# Your Success Is Our Top Priority

## The CCPN Difference

CCPN is focused on what matters most to our providers:

1. Remaining financially viable
2. Providing high value care
3. Maximizing satisfaction with the practice of medicine
4. Physician ownership/self-governance by community-based physicians

CCPN's aim is to **return the maximum amount of shared savings and quality incentives** to CCPN practices while maintaining a sustainable and robust support infrastructure and modest reserves.

We **directly tie our profitability to our practices' success**, avoiding claw backs and being completely transparent regarding the portion of bonuses and shared savings needed to support the network.

Decisions on all major policies are made by a Board of Managers comprised of **independent primary care physicians, an obstetrician, and a psychiatrist, most of whom are still in active practice.**

The more CCPN contracts in which a practice participates, the more we can provide **practice-facing support that improves your ability to capture more revenue** from value-based agreements.

The more we do together, the better our mutual financial performance will be.

## CCPN Is Your CIN

Community Care Physician Network (CCPN) is a clinically-integrated network (CIN) launched by physician leaders to improve outcomes, deliver better quality, cut costs, and improve satisfaction of health consumers and providers. CCPN has become **a strong statewide CIN** led by independent primary care physicians. CCPN is currently comprised of **3,815 clinicians** at over **1,000 practices across the state** – the largest group of independent primary care providers in the nation. CCPN now offers value-based contracts across **Medicaid, Medicare, and Commercial lines of business.**

## We Are Growing & Evolving Daily

CCPN continues to adapt & enhance capabilities to meet the changing needs of our member practices.

Recent enhancements include:

- **Physician Ownership:** CCPN will soon be offering physicians an ownership option, allowing you to control your own destiny and ensure that CCPN operations always remain true to its roots.
- **UpStream Partnership:** A new model of Medicare value-based contracting that eliminates financial risk for providers and allows practices to earn advanced payments across all Medicare beneficiaries in their practice on a guaranteed PMPM basis instead of having to wait for post-performance reconciliation 18 months later.

## We Are Growing & Evolving Daily (cont.)

- **Independent Care Trust™:** A health plan focused on primary care available to CCPN members, their staffs and dependents. A plan run by practicing physicians, focused on helping make your practice successful and promoting high-quality, cost-effective healthcare for your staff – with CCPN practices playing a central role in care delivery.
- **Value-based Informatics Program (VIP<sup>SM</sup>):** A new strategy for extracting and reporting clinical data from our member EHRs to drive quality measures and to provide inline prompting tools to drive care gap closure and risk adjustment at the point of care. Optimizes shared savings and value-based plan quality incentives.
- **Educational Supports:** Innovative support programs like the MA Boot Camp, an ongoing virtual meeting series that brings CCPN members expert advice on how to succeed in Medicare Advantage contracts, including RAF scoring, coding and ADT alerts.

*“CCPN provides my practice with everything I need to succeed in managed care – and begin immediately to ensure my practice will hit quality targets that will improve revenue.”*

— Christoph Diasio, MD

## You Can Count on CCPN!

The new approaches to managing quality and physician reimbursement offer many opportunities to enhance patient care and practice revenue. But to succeed you need a partner who understands your patients and what it's like to run a busy practice.

CCPN is that partner. We are a **physician-led, clinically integrated network of practicing physicians** who know what you are going through. Together, we can help your practice survive and thrive in the new healthcare environment.
