

# What You Need to Know

## Who is CCPN?

Community Care Physician Network (CCPN) is a clinically integrated network committed to improving the quality of care and support for North Carolina's independent clinicians as the state's health care delivery system transitions to value-based care.

With more than 3,238 primary care, behavioral health, and OB/GYN physicians in over 978 practices, CCPN is NC's largest independent clinician network.

CCPN's Board of Managers and Co-Presidents are physicians who work in independent practices from the mountains to the coast. They understand the values and needs of independent clinicians across North Carolina.

## CCPN is Here to Help!

Do you need support as North Carolina Medicaid transitions to managed care and value-based payments from commercial payers become part of your practice's revenue stream.

CCPN has the expertise and the tools to help your practice thrive in the new healthcare environment.

## What Does CCPN Do for My Practice?

CCPN is led by practicing independent clinicians from across North Carolina who understand the value of obstetricians and gynecologists.

CCPN is committed to providing obstetricians and gynecologists with:

- Support and services needed to remain independent
- Actionable data to help you identify quality improvement opportunities within your practice and demonstrate **YOUR VALUE** to payers
- Improved communication within CCPN's Medical Neighborhood which includes behavioral health clinicians and support in addressing factors impacting Social Determinants of Health (SDOH)
  - Phreesia, a CCPN partner, offers CCPN practices preferred pricing on their patient intake platform structured to capture information on SDOH to help clinicians better address these needs
- Payer contracts with commercial and public payers seeking a high performing, quality-focused network
  - CCPN is contracted with the NC State Health Plan and is leading a collaborative effort across independent practices to bring enhanced quality programs to this population of patients
  - CCPN is also contracted with all five Medicaid Managed Care payers
- Preferred tiered pricing for telemedicine services with DocsInk, a North Carolina based telemedicine provider
- Vaccine discounts and rebates through CCPN's vaccine supply partners - Atlantic Health Partners and Vaccine Direct

# How CCPN Works

## Governance

CCPN is governed by a board composed of participating clinicians, ensuring that CCPN operates in the best interests of practices and patients.

## Value

Through CCPN, independent practices can collect quality and cost data that demonstrates value to both public and private payers. Practices are able to consider participation in contracts with payers, employers, and other health care entities.

## Quality Improvement

Participating clinicians serve on CCPN's Quality Improvement Committee, which develops clinical improvement initiatives and establishes quality goals.

## Non-Exclusive Model

CCPN is an open, non-exclusive network. It seeks to collaborate rather than to compete, offering prospective provider-led entities (PLEs), managed care organizations (MCOs), and other payers all-insurers access to an extended, high-functioning primary care infrastructure that includes OB/GYN, behavioral health, and value-added specialty services. An insurer seeking to ensure patient access across a rural area, for example, may do so quickly and cost-effectively through a contract with CCPN. CCPN will look for opportunities to collaborate with other programs demonstrating aligned quality and cost-effective goals.

## Joining Fee

For practices with fewer than 15 clinicians, there is a one-time enrollment fee of \$75 per clinician. For practices or IPAs with more than 15 clinicians, the one-time enrollment fee is \$50 per clinician.

Ready to work together with the **largest clinically integrated network of independent clinicians in North Carolina** to deliver high quality care and find success in value-based reimbursement? Contact CCPN to see how we can make this happen together.

## About Community Care Physician Network

CCPN is a physician-led, clinically-integrated network that helps independent primary care physicians deliver high-quality, cost-effective care. CCPN's experience and infrastructure turn data into actionable insights and drive quality improvement, measurement, and reporting. Through CCPN, physicians work with peers to improve patient care and coordinate care across conditions, providers, settings and time. CCPN helps you better manage your complex patients while hitting quality targets under value-based reimbursement arrangements.
